PROFESSIONAL SUMMARY

Final-year Computer Science student and ALX-trained engineer with strong foundations in full-stack development and a demonstrated specialism in modern frontend engineering. Proficient in React, Next.js, TypeScript, Tailwind CSS, and Node.js, with working knowledge of Go, PostgreSQL, MongoDB, and Python. Delivered real client-facing web applications and personal platform projects. Known for pixel-perfect attention to detail, clean maintainable code, and a drive to learn fast. Seeking a software engineering internship where I can contribute from day one while growing across the stack.

TECHNICAL SKILLS

Frontend	React, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3
Backend	Node.js, PostgreSQL, MongoDB · REST API integration & third-party services
Languages	JavaScript / TypeScript (proficient) · Python (intermediate, actively learning)
Tools & Design	Git, GitHub, Figma, VS Code, Vercel, Netlify
Core Practices	Responsive & accessible UI · Component architecture · Version control workflows

PROJECTS

YEN — Youth Entrepreneurship Network

Lead Developer | Personal Project
Tech Stack: React, Next.js, Tailwind CSS

- Developed a web platform connecting young entrepreneurs with investors and mentors.
- Built reusable frontend components and implemented responsive layouts for mobile, tablet, and desktop devices.
- Managed application routing, component structure, and frontend state management independently.
- Leveraged AI-assisted development tools to accelerate component scaffolding and debug frontend logic, maintaining full code ownership and review.

- Deployed and maintained the application using modern frontend deployment platforms.

Github Link : <https://github.com/njeruSilvana/yen-project>

Multipoint Advisory

Frontend Collaborator | Client-Facing Project

Tech Stack: React, TypeScript, Tailwind CSS

- Contributed to the development of a professional advisory firm's production website.
- Collaborated within a development team using Git and pull-request workflows.
- Assisted in implementing responsive user interfaces and maintaining consistent design standards.

Github Link : <https://github.com/ALEXNJOROG/multipoint>

ALX Listing App

Individual Project | ALX ProDev Programme

Tech Stack: Next.js, TypeScript, Tailwind CSS

- Built an Airbnb-inspired property listing application with dynamic routing functionality.
- Implemented reusable UI components and type-safe data handling using TypeScript.
- Applied responsive design principles to ensure accessibility across multiple screen sizes.

Github Link : <https://github.com/njeruSilvana/alx-listing-app>

EDUCATION

Bachelor of Science — Computer Science

Egerton University, Kenya Expected

Graduation: November 2026

Relevant Coursework:

Algorithms • Database Systems • Software Engineering • Web Development • Computer Networks

CERTIFICATIONS

ALX ProDev Frontend Engineering — ALX Africa

- Advanced frontend development using React, Next.js, TypeScript, and Tailwind CSS.
- Completed project-based, industry-aligned software engineering training.

ALX Professional Foundations — ALX Africa

- Training in leadership, teamwork, communication, workplace ethics, and problem-solving.

ADDITIONAL

Languages: English (fluent) · Swahili (native)

Availability: Immediate

Interests: Open source, developer communities, UI/UX design systems, AI-assisted engineering workflows
